A BRIEF STORY ABOUT THE COMPANY

REALLYGREATSITE

About Us

ABAN Co. operates as a dynamic enterprise delivering diverse business solutions across India and the Kingdom of Saudi Arabia. Backed by strong industry expertise, the company is built on the vision, guidance, and commitment of seasoned professionals who bring decades of hands-on experience across multiple sectors in both regions.

Our foundation is driven by a clear focus on excellence in project execution, where success is achieved through robust project management practices, strategic planning, and continuous development of skilled personnel. At ABAN Co., every project is approached with precision, efficiency, and a results-oriented mindset tailored to client objectives.

The leadership team at ABAN Co. possesses extensive expertise in planning, design, and end-to-end project management for complex and multi-dimensional projects in India and Saudi Arabia. Strengthened by strategic alliances with trusted value-added partners, ABAN Co. continuously enhances its capabilities to meet evolving market trends, emerging technologies, and contemporary customer expectations.

OUR VISION

Engineering plays a critical role in driving sustainable industrial growth and societal development. Our vision is to position ABAN Co. as a trusted and preferred partner by delivering customer-centric, innovative, and technology-driven engineering and construction solutions that create long-term value for our clients and stakeholders.

OUR MISSION

ABAN Co. is committed to providing integrated engineering consultancy and construction services that consistently exceed client expectations. We foster a collaborative, efficient, and performance-driven work environment, empowered by the technical expertise, leadership, and dedication of our team. Through our operations, we aim to contribute positively to society while upholding the core values and principles of ABAN Co. across every project and region we serve.

OUR STRENGTH

- A highly skilled, experienced, and qualified management team focused on effective planning and flawless project execution.
- A multidisciplinary organization offering comprehensive expertise with professionalism and accountability.
- Strong capabilities across Civil Engineering, Architecture, MEP Services, Fire Fighting & Fire Alarm Systems, along with complete Planning, Design, and Turnkey Project Implementation.

CEO'S STATEMENT

At ABAN Co., we are guided by a strong commitment to delivering reliable, future-ready solutions that support industrial growth and infrastructure development. Our company has been built on the principles of integrity, technical excellence, and customer-centric execution across every project we undertake.

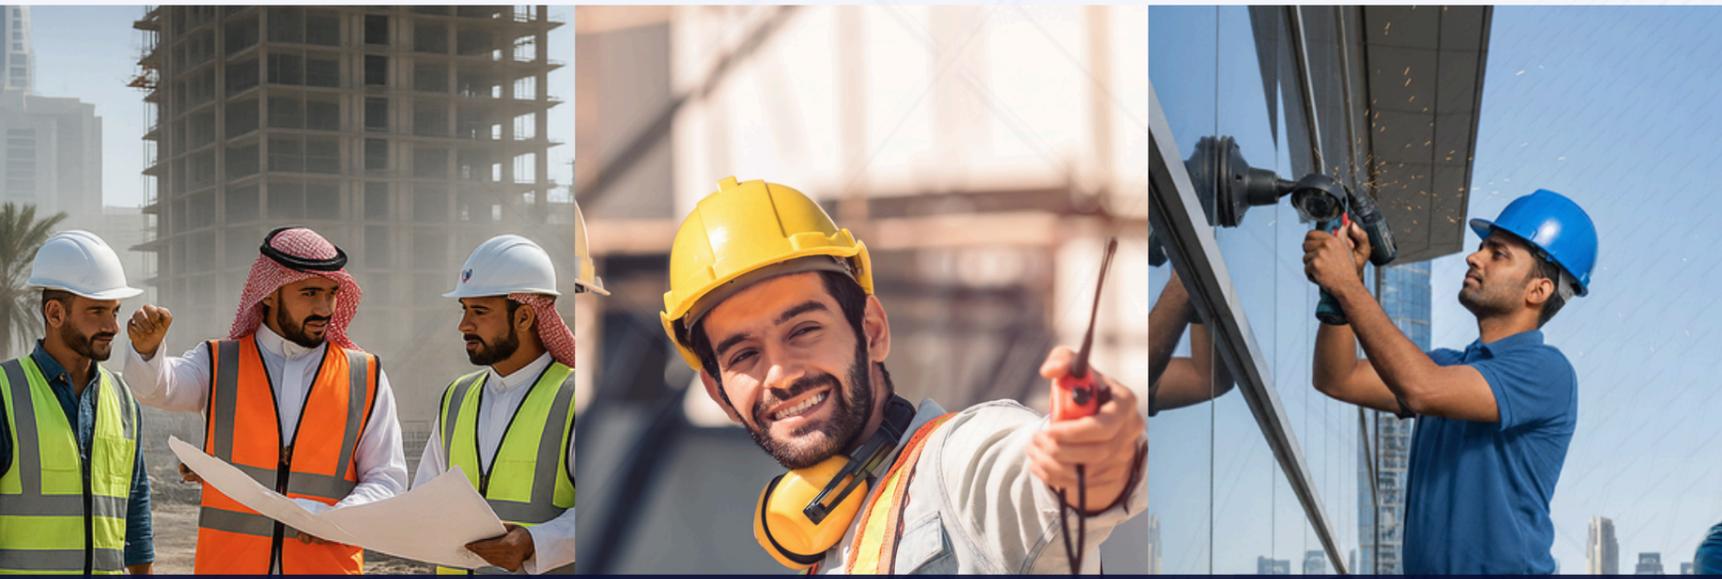

With operations spanning India and the Kingdom of Saudi Arabia, ABAN Co. offers diversified expertise across Telecom, General Contracting, Industrial Services, and Security Systems. This multi-domain capability enables us to provide integrated solutions tailored to the evolving needs of our clients, while maintaining the highest standards of safety, quality, and compliance.

Our leadership team and professionals bring decades of experience in planning, engineering, and project execution. We believe that true success lies in understanding client objectives, applying innovative technologies, and executing projects through disciplined project management and skilled manpower.

People remain at the heart of ABAN Co.'s growth. We foster a collaborative work culture that encourages accountability, continuous learning, and leadership development. Through strong partnerships and ethical business practices, we aim to deliver sustainable value and long-term relationships.

We thank our clients, partners, and employees for their continued trust and support, and we look forward to building the future together with ABAN Co.

Our Services

At ABAN Co., we deliver integrated, reliable, and scalable solutions across multiple sectors. Our services are designed to meet modern industry requirements while ensuring quality, safety, and timely execution.

TELECOM

ABAN Co. provides end-to-end telecom infrastructure solutions that support seamless connectivity and network expansion.

GENERAL CONTRACTING

We offer comprehensive general contracting services for residential, commercial, and industrial projects.

INDUSTRIAL SERVICES

Our industrial services are tailored to support operational efficiency, safety, and sustainability across various industries.

SECURITY SYSTEM

ABAN Co. delivers advanced and integrated security solutions to protect assets, infrastructure, and people.

CONSTRUCTION

Complete civil and structural construction services delivered with quality, safety, and timely execution.

OPERATION & MAINTENANCE

Professional operation and maintenance services ensuring safe, reliable railway ballast wagon performance.

PETROMIN FUEL STATION

End-to-end fuel station construction, maintenance, and operational support meeting international standards.

GSM TOWERS & ANTENNA INSTALLATION

Installation and commissioning of GSM towers and antennas ensuring optimal network coverage.

CONCRETE WORKS

High-quality concrete works for large-scale power projects ensuring strength, durability, compliance.

FENCE

Design, supply, and installation of industrial and infrastructure fencing with security compliance.

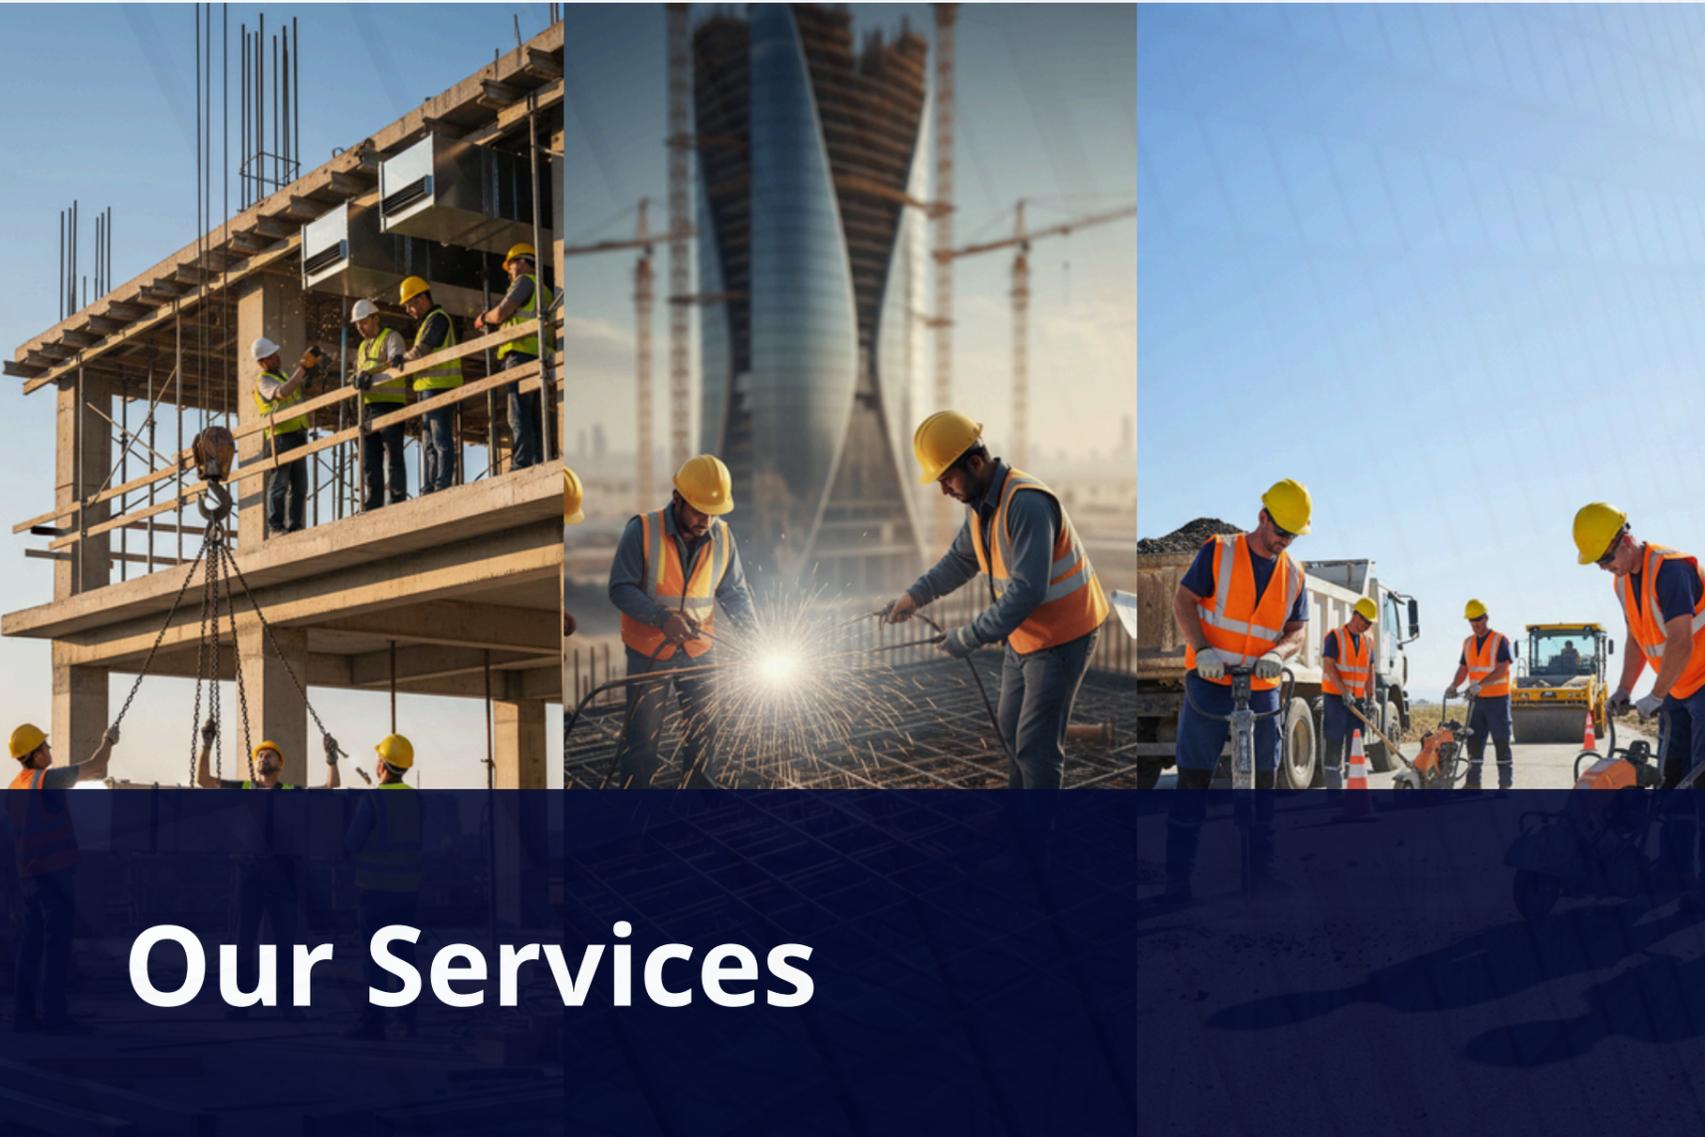

PLUMBING

Complete plumbing systems installation and maintenance for residential, commercial, industrial facilities.

SOLAR

Design, installation, and maintenance of efficient solar energy systems for sustainable power solutions.

Our Services

CABLE LAYING & SMART METER INSTALLATION

Underground and overhead cable laying with accurate smart meter installation services.

ASPHALT WORK

Road and pavement asphalt works ensuring smooth surfaces, durability, and load performance.

OSP & FTTH

Outside plant and fiber-to-the-home network deployment with reliable high-speed connectivity.

PIPE LINE

Pipeline construction, installation, and maintenance services for industrial and infrastructure projects.

TRACK MAINTENANCE WORK & TESTING OF TRACK

Rail track maintenance and testing services ensuring safety, alignment, and operational reliability.

CABLE INSTALLATION & OSP NETWORK

Marine cable laying and offshore OSP network installation with specialized technical expertise.

FIBER INSTALLATION & SPLICING

Precision fiber installation and splicing ensuring low-loss, high-performance network connectivity.

ISP & IN-BUILDING SOLUTIONS

End-to-end ISP and in-building network solutions for seamless indoor connectivity.

FACILITIES SERVICES

HVAC Maintenance, Fire Fighting Services, Plumbing, Electrical Maintenance, Cleaning Services

STATE HIGHWAY

State highway construction and maintenance delivering durable roads meeting regulatory standards.

TELECOM SERVICES

ABAN Co. provides end-to-end telecom infrastructure solutions that support seamless connectivity and network expansion. Our expertise covers planning, deployment, installation, and maintenance of telecom systems, executed with strict adherence to industry standards and safety regulations.

KEY CAPABILITIES:

- Telecom infrastructure development
- Network installation & commissioning
- O&M support and maintenance services
- Project management & technical support

General Contracting

We offer comprehensive general contracting services for residential, commercial, and industrial projects. From site preparation to final handover, ABAN Co. ensures efficient coordination, quality construction, and on-time delivery.

ABAN Co. offers end-to-end general contracting services for residential, commercial, and industrial construction projects. We manage the complete construction lifecycle, ensuring quality execution, cost efficiency, and timely delivery.

Our general contracting team coordinates civil works, architectural finishes, and MEP activities to deliver well-structured and functional spaces. We emphasize strong planning, skilled execution, and continuous monitoring to maintain quality standards throughout the project.

KEY CAPABILITIES:

- Civil and structural construction works
- Architectural finishes and interior execution
- MEP coordination and integration
- Renovation, expansion, and refurbishment works
- Complete turnkey project delivery

We work closely with clients, consultants, and suppliers to ensure transparency, compliance, and smooth project coordination. Every project is executed with a focus on durability, safety, and long-term performance.

INDUSTRIAL SERVICES

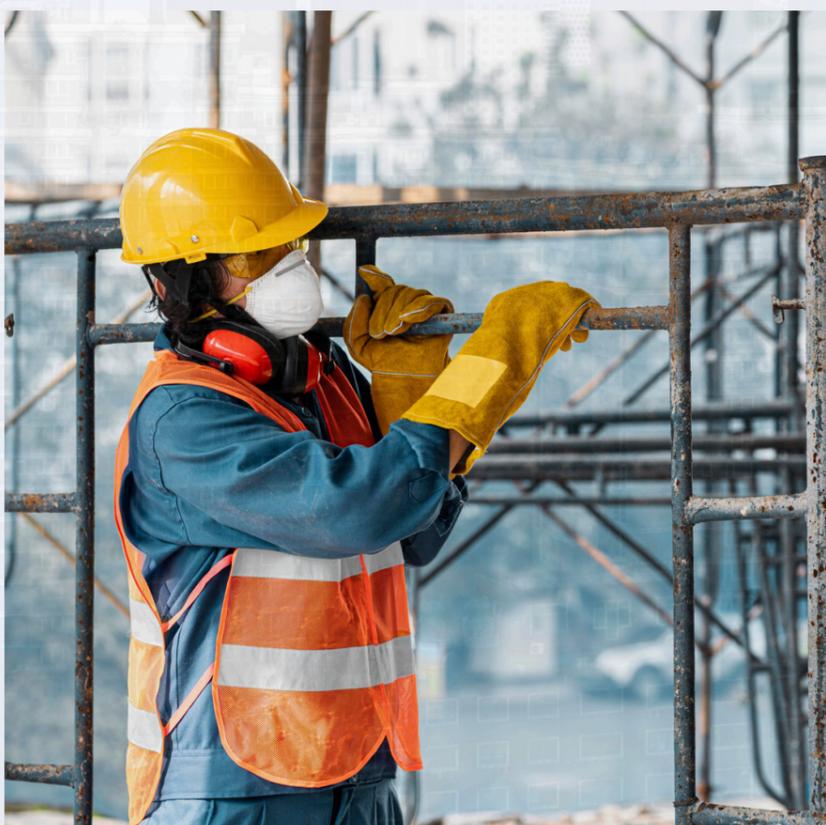

ABAN Co. delivers reliable industrial services that support efficient operations, safety, and sustainability across various industrial sectors. Our services are designed to meet the technical and operational needs of industrial plants, facilities, and infrastructure projects.

We provide skilled manpower, technical expertise, and structured execution to support ongoing operations, maintenance, and project-based requirements. Our focus is on reducing downtime, improving productivity, and maintaining compliance with industry standards.

With a strong emphasis on safety and operational efficiency, we help clients achieve smooth and reliable industrial operations.

KEY CAPABILITIES:

- Industrial construction and maintenance services
- Mechanical and electrical works
- Plant support and operational assistance
- Shutdown, turnaround, and refurbishment services
- On-site supervision and technical support
- Safety management and compliance

SECURITY SYSTEMS

ABAN Co. provides integrated security system solutions to protect people, assets, and infrastructure. Our security services are designed to enhance monitoring, control access, and improve overall safety across commercial, industrial, and infrastructure environments.

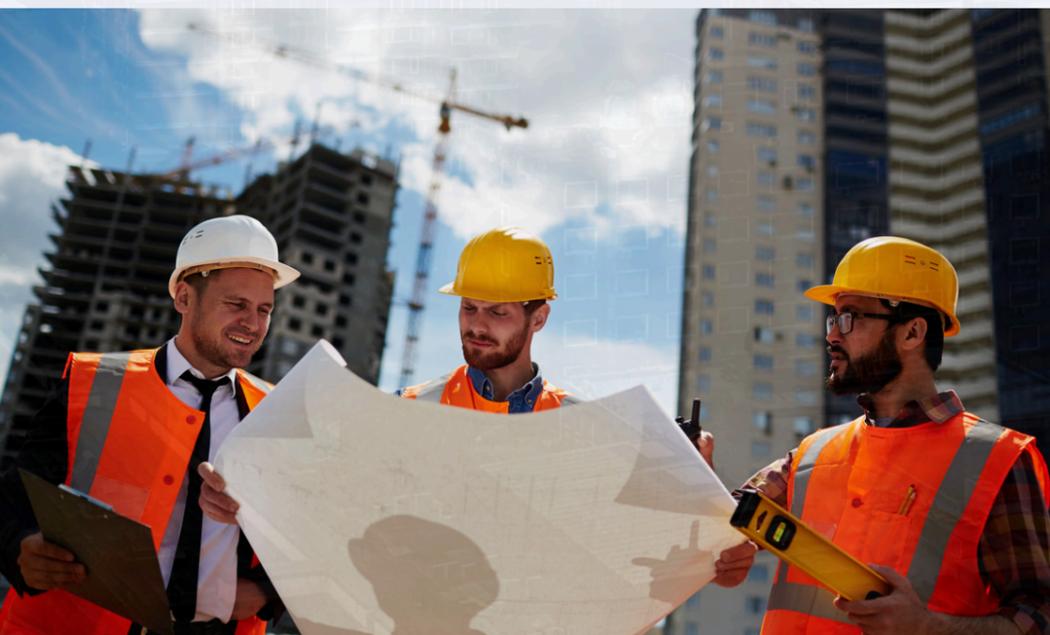

We deliver complete security solutions starting from system design and installation to testing, commissioning, and long-term maintenance. Our solutions are scalable and adaptable to meet changing security needs.

We ensure that all security systems comply with international safety standards and are implemented with precision and reliability.

CONSTRUCTION

ABAN Co. provides reliable construction services for commercial, industrial, and infrastructure projects. We manage construction activities with strong planning, skilled manpower, and strict quality control to ensure timely and cost-effective project delivery. Our construction approach focuses on safety, durability, and compliance with engineering standards.

PETROMIN FUEL STATION

ABAN Co. supports Petromin fuel station projects through construction, technical works, and maintenance services. We ensure all works meet safety, environmental, and operational regulations required for fuel handling facilities.

Our teams manage civil, structural, and utility-related activities while maintaining strict safety controls. We focus on reliable execution, operational readiness, and long-term maintenance support.

KEY CAPABILITIES:

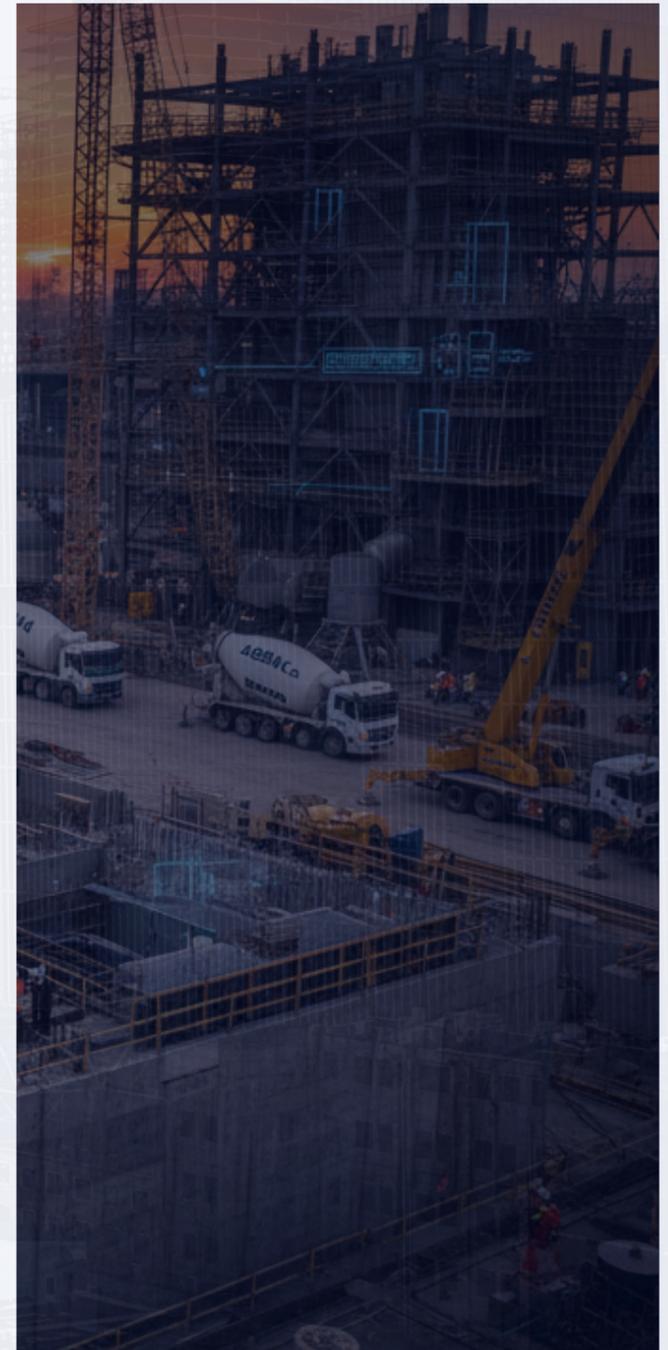

- Fuel station construction works
- Civil and MEP coordination
- Safety and environmental compliance
- Maintenance and operational support
- Quality and inspection services

RABEC IPP 1330 MW CONCRETE WORKS

ABAN Co. provides large-scale concrete works for power and infrastructure projects such as RABEC IPP. Our expertise ensures structural integrity, accurate execution, and compliance with project specifications.

We manage concrete production, placement, curing, and testing with strict quality control processes. Our approach ensures strength, durability, and performance of critical structures.

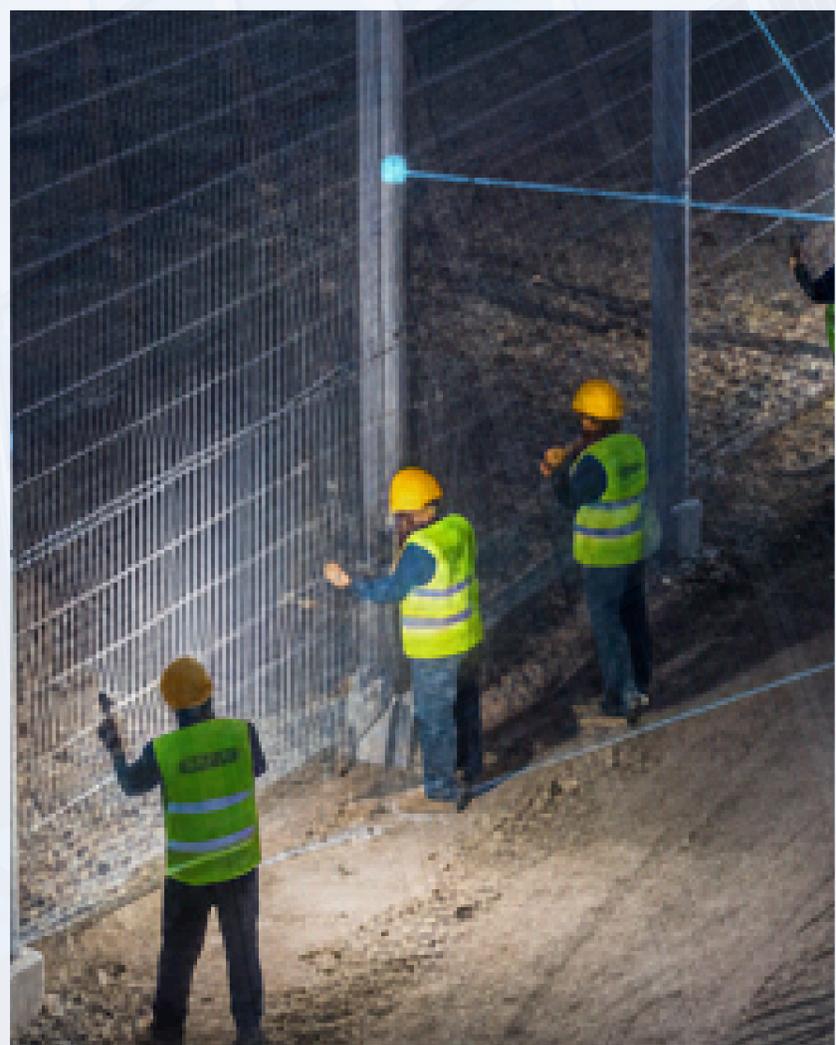

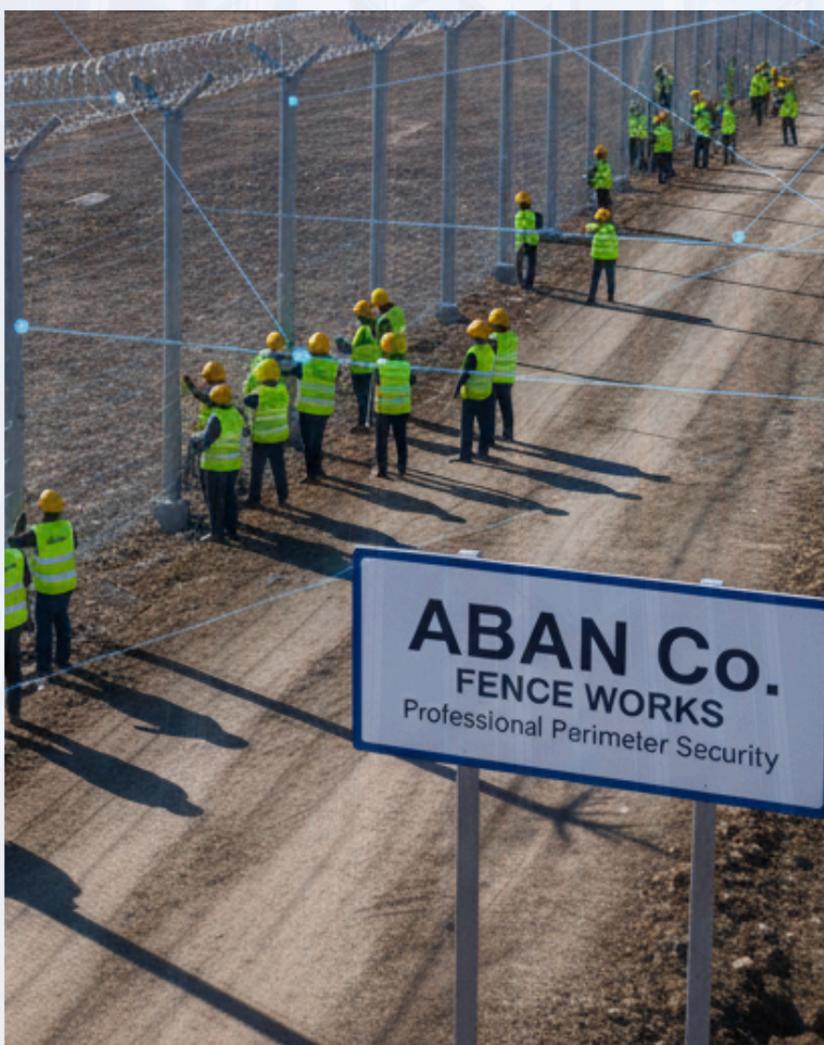

FENCE WORKS

ABAN Co. provides professional fencing services for industrial, commercial, infrastructure, and utility projects. Our fencing solutions are designed to ensure security, site demarcation, and controlled access while maintaining durability and long-term performance under varying environmental conditions.

We execute fencing works using quality materials and proven installation methods to meet site-specific requirements. Our services include layout marking, foundation preparation, installation, and final alignment. Every fencing project is carried out with attention to strength, stability, and finish.

KEY CAPABILITIES:

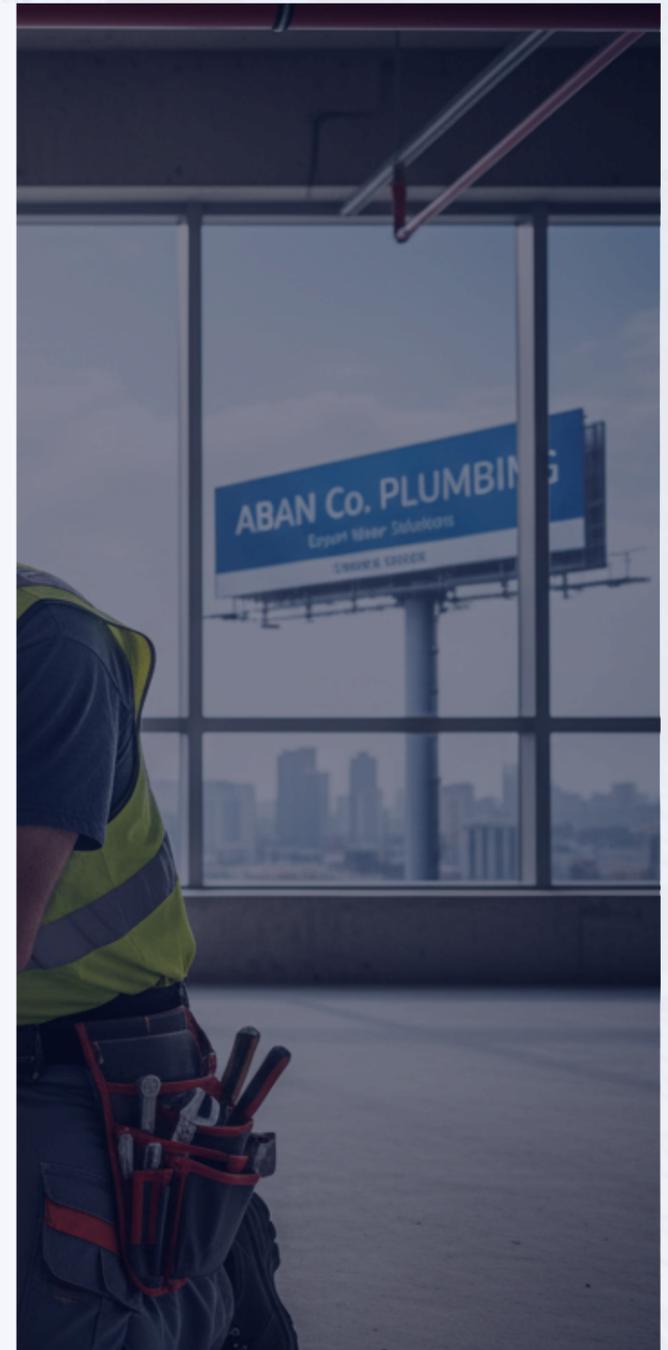

- Perimeter and security fencing
- Industrial and infrastructure fencing
- Installation and alignment works
- Maintenance and repair services
- Compliance with site requirements

PLUMBING

ABAN Co. provides complete plumbing services for residential, commercial, industrial, and infrastructure projects across India and the Kingdom of Saudi Arabia. Our plumbing solutions are designed to ensure efficient water supply, drainage, and sanitation systems that meet engineering standards, operational requirements, and local regulatory norms. We manage plumbing works as an integral part of overall project execution, ensuring coordination with civil, architectural, and MEP activities.

Our scope includes installation of water supply lines, drainage networks, sewage systems, and sanitary fixtures. We use approved materials and follow proper installation practices to ensure leak-free, durable, and efficient systems. Every plumbing activity is carried out with careful planning, accurate alignment, and pressure testing to confirm performance and reliability.

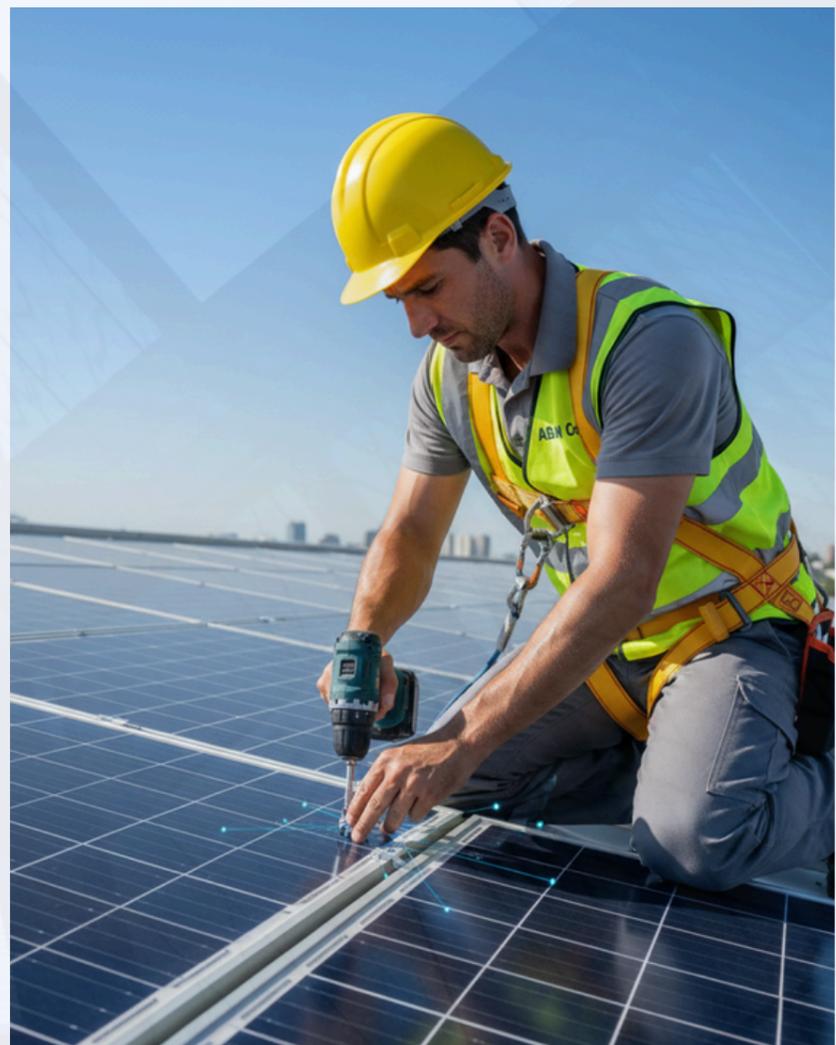

SOLAR

ABAN Co. delivers solar energy solutions that support sustainable power generation and reduced energy costs for commercial, industrial, and infrastructure clients. Our solar services are designed to meet growing energy demands while promoting environmentally responsible practices. We support clients through installation, integration, and long-term maintenance of solar power systems.

Our team handles solar panel installation, electrical integration, and system commissioning in compliance with approved technical standards. We ensure correct positioning, secure mounting, and efficient connectivity to achieve optimal system performance. Safety is a critical focus during installation, especially when working at heights and with electrical systems.

KEY CAPABILITIES:

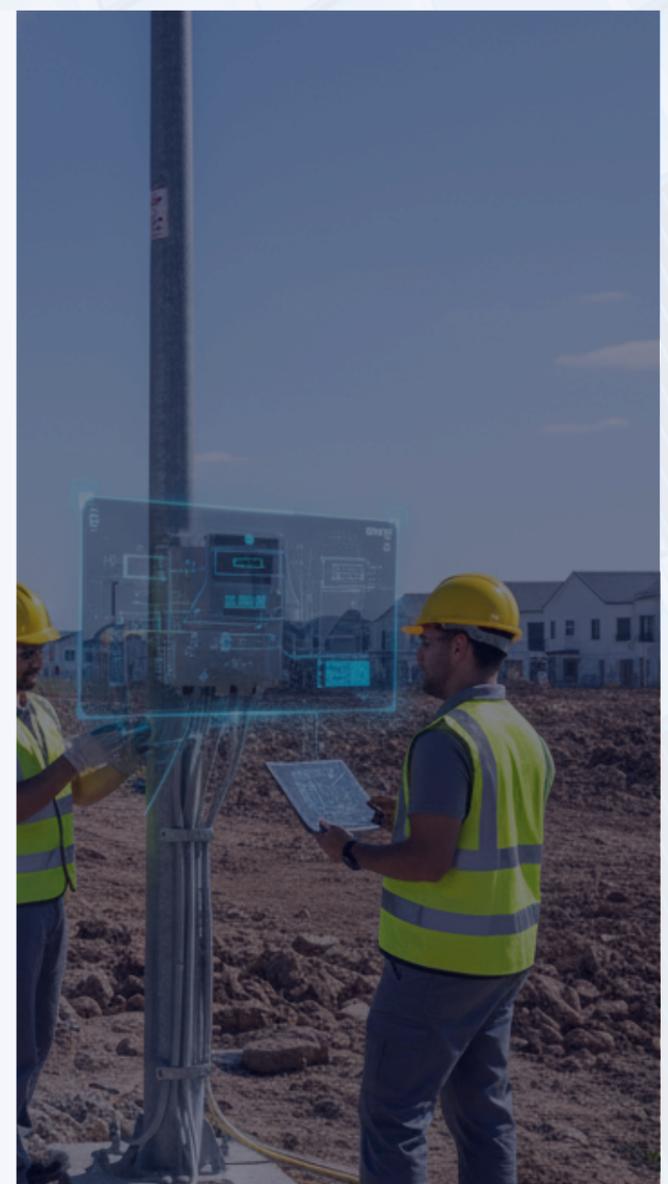

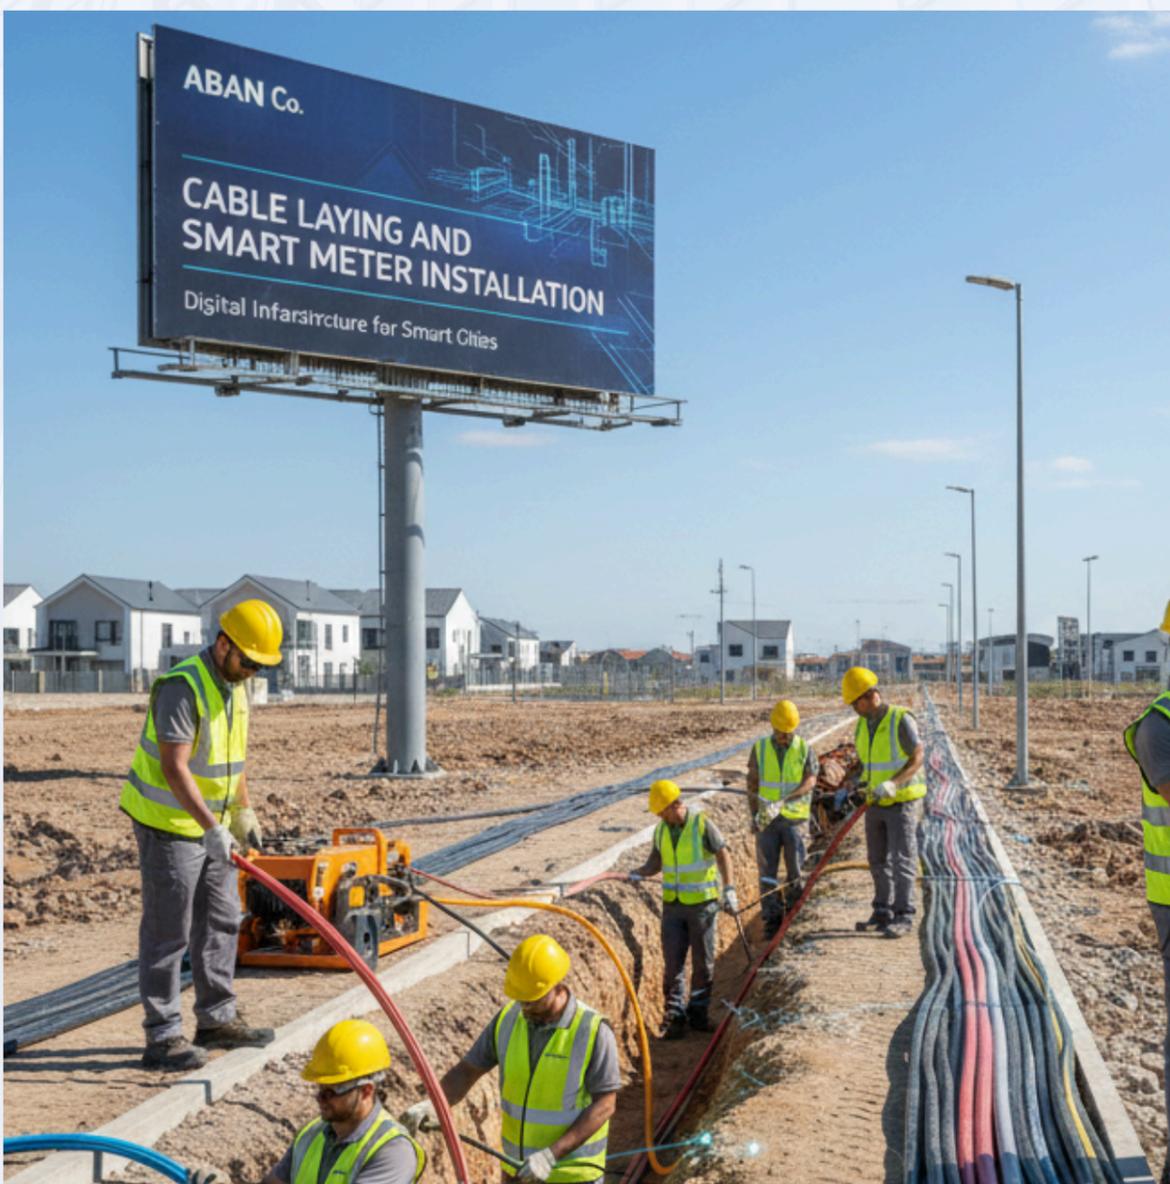

- Solar panel installation
- Electrical system integration
- Grid and off-grid solutions
- Testing and commissioning
- Operation and maintenance services

CABLE LAYING AND SMART METER INSTALLATION

ABAN Co. provides professional cable laying and smart meter installation services for utility, infrastructure, and smart city projects. Our services support power distribution networks, communication systems, and digital infrastructure initiatives. We ensure accurate installation, system reliability, and compliance with safety and technical standards.

Our cable laying services include trenching, ducting, cable pulling, jointing, and termination for both underground and overhead networks. We follow approved routing plans and installation procedures to avoid damage and ensure long-term performance. Proper testing is carried out to verify continuity and insulation integrity.

ASPHALT WORK

ABAN Co. provides professional asphalt work services for roads, highways, industrial areas, and infrastructure projects across India and the Kingdom of Saudi Arabia. Our asphalt works are executed with a strong focus on durability, surface quality, and long-term performance under varying traffic and environmental conditions. We follow approved specifications and industry standards to ensure reliable and safe road surfaces.

Our asphalt services begin with proper site assessment and surface preparation. This includes grading, compaction, and base preparation to ensure a strong foundation before asphalt laying. We carefully manage asphalt production, transportation, laying, and compaction processes to achieve uniform thickness, smooth finish, and required density. Continuous monitoring ensures compliance with technical and quality requirements.

KEY CAPABILITIES:

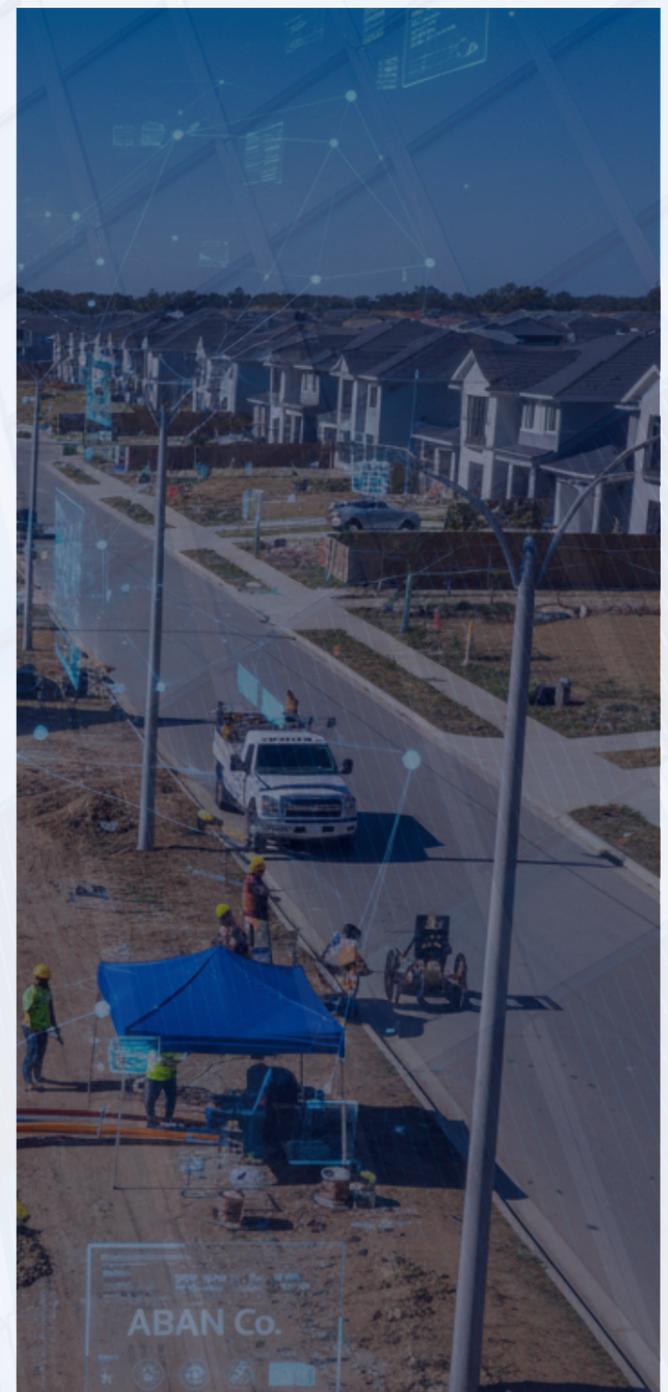

- Road and pavement asphalt works
- Surface preparation and base compaction
- Asphalt laying and rolling
- Repair and resurfacing works
- Quality control and safety compliance

OSP AND FTTH

ABAN Co. provides comprehensive OSP and FTTH services to support telecom network expansion and high-speed connectivity projects. Our services are designed to meet the growing demand for reliable data transmission across residential, commercial, and industrial areas. We manage OSP and FTTH projects with structured execution and technical precision.

Our scope includes route surveys, trenching, ducting, fiber laying, jointing, and restoration works. We follow approved network designs and installation standards to ensure minimal signal loss and long-term network reliability. ABAN Co. ensures proper coordination with utility authorities and stakeholders during execution to avoid disruptions.

PIPE LINE WORK

ABAN Co. delivers pipeline installation services for infrastructure, industrial, and utility projects. Our pipeline works support the transportation of water, fuel, and other utilities with a strong emphasis on safety, alignment, and long-term reliability. We execute pipeline projects in compliance with engineering standards and client specifications.

Our services include route alignment, trench excavation, pipe laying, jointing, testing, and backfilling. We ensure accurate installation and proper handling of pipes to prevent damage and leakage. Pressure testing and inspection are carried out to confirm system integrity before commissioning.

Our pipeline services are designed to deliver durable and efficient utility systems that support operational continuity and infrastructure development.

KEY CAPABILITIES:

- Pipeline installation and alignment
- Jointing and welding works
- Pressure testing and inspection
- Backfilling and restoration
- Safety and quality compliance

OSP AND FTTH

ABAN Co. provides comprehensive OSP and FTTH services to support telecom network expansion and high-speed connectivity projects. Our services are designed to meet the growing demand for reliable data transmission across residential, commercial, and industrial areas. We manage OSP and FTTH projects with structured execution and technical precision.

Our scope includes route surveys, trenching, ducting, fiber laying, jointing, and restoration works. We follow approved network designs and installation standards to ensure minimal signal loss and long-term network reliability. ABAN Co. ensures proper coordination with utility authorities and stakeholders during execution to avoid disruptions.

CABLE INSTALLATION AND OSP NETWORK

ABAN Co. provides comprehensive OSP and FTTH services to support telecom network expansion and high-speed connectivity projects. Our services are designed to meet the growing demand for reliable data transmission across residential, commercial, and industrial areas. We manage OSP and FTTH projects with structured execution and technical precision.

Our scope includes route surveys, trenching, ducting, fiber laying, jointing, and restoration works. We follow approved network designs and installation standards to ensure minimal signal loss and long-term network reliability. ABAN Co. ensures proper coordination with utility authorities and stakeholders during execution to avoid disruptions.

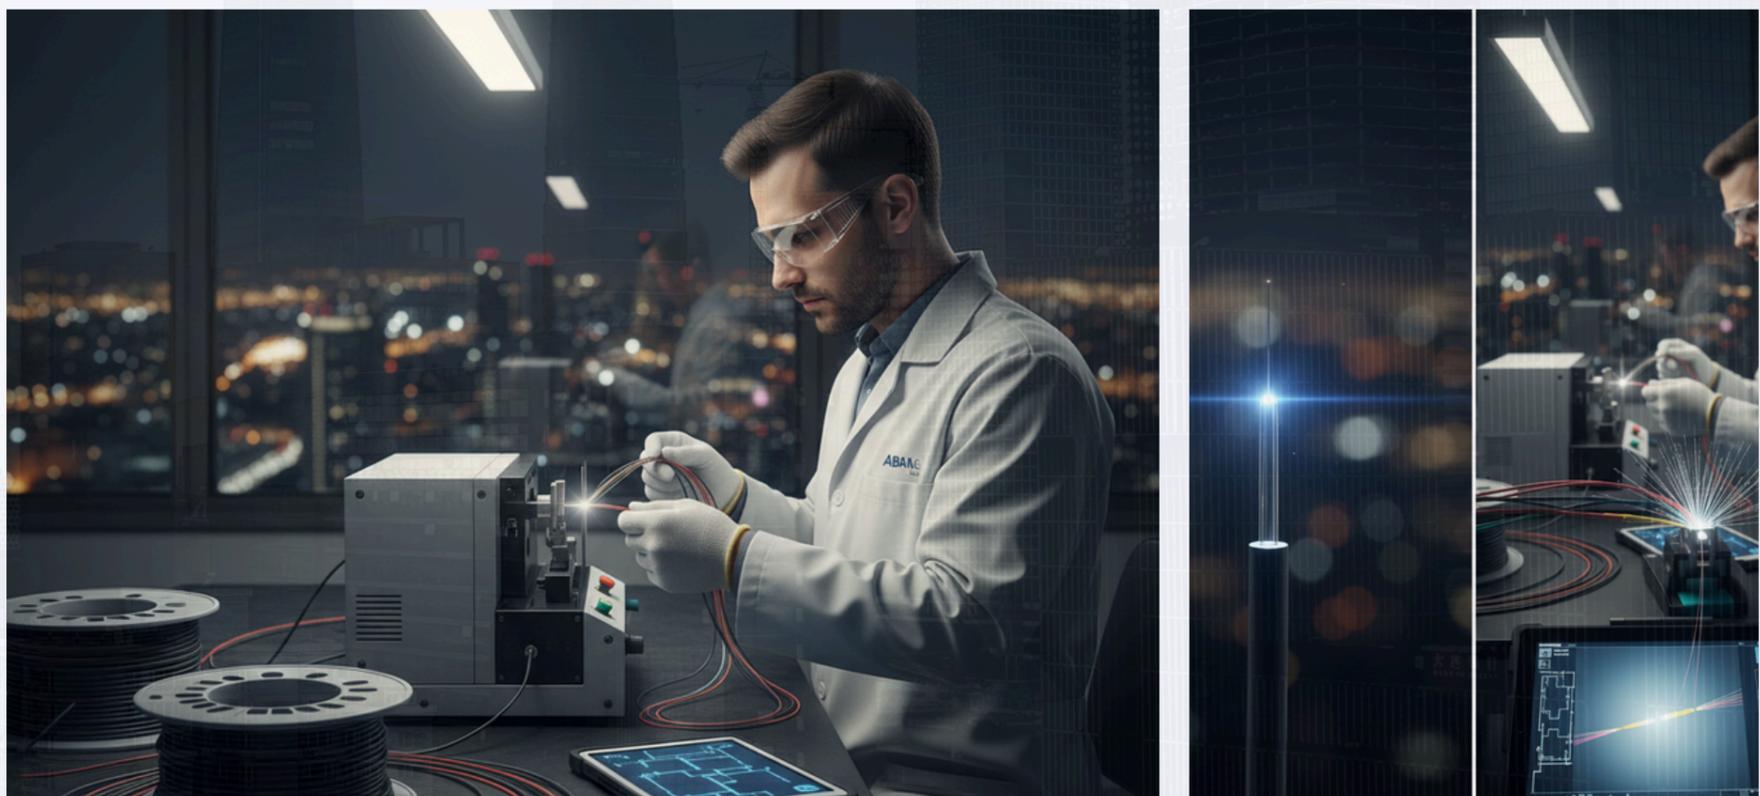

KEY CAPABILITIES:

- Marine cable laying and securing
- OSP network execution
- Route assessment and preparation
- Testing and commissioning
- Safety and environmental compliance

FIBER INSTALLATION AND SPLICING

ABAN Co. provides reliable execution and support services for National Broadband Network projects, contributing to the expansion of high-speed digital connectivity. Our NBB services are designed to meet strict technical standards, quality requirements, and timelines set by telecom authorities and network operators. We support large-scale broadband initiatives that play a vital role in national digital transformation.

Our scope of work includes site surveys, route preparation, trenching, ducting, fiber installation, jointing, testing, and restoration activities. ABAN Co. ensures that all NBB works are executed in accordance with approved designs, safety guidelines, and regulatory requirements. Our experienced teams manage on-site activities with precision to ensure network reliability and minimal disruption to public areas.

KEY CAPABILITIES:

- Fiber cable installation
- Splicing and termination
- Optical testing and inspection
- Documentation and reporting
- Maintenance and troubleshooting

ISP AND IN-BUILDING SOLUTIONS

ABAN Co. provides comprehensive ISP and in-building network solutions designed to deliver seamless connectivity within residential, commercial, industrial, and mixed-use developments. Our services support reliable data, voice, and internet access inside buildings, ensuring strong network performance and user satisfaction. We work closely with service providers, developers, and facility owners to implement efficient and scalable in-building systems.

Our scope includes network planning, cable routing, installation of structured cabling, fiber and copper networks, access points, and internal distribution systems. ABAN Co. ensures that all in-building infrastructure is properly designed to avoid signal loss, interference, and congestion. We follow approved standards and best practices to ensure long-term reliability and easy maintenance.

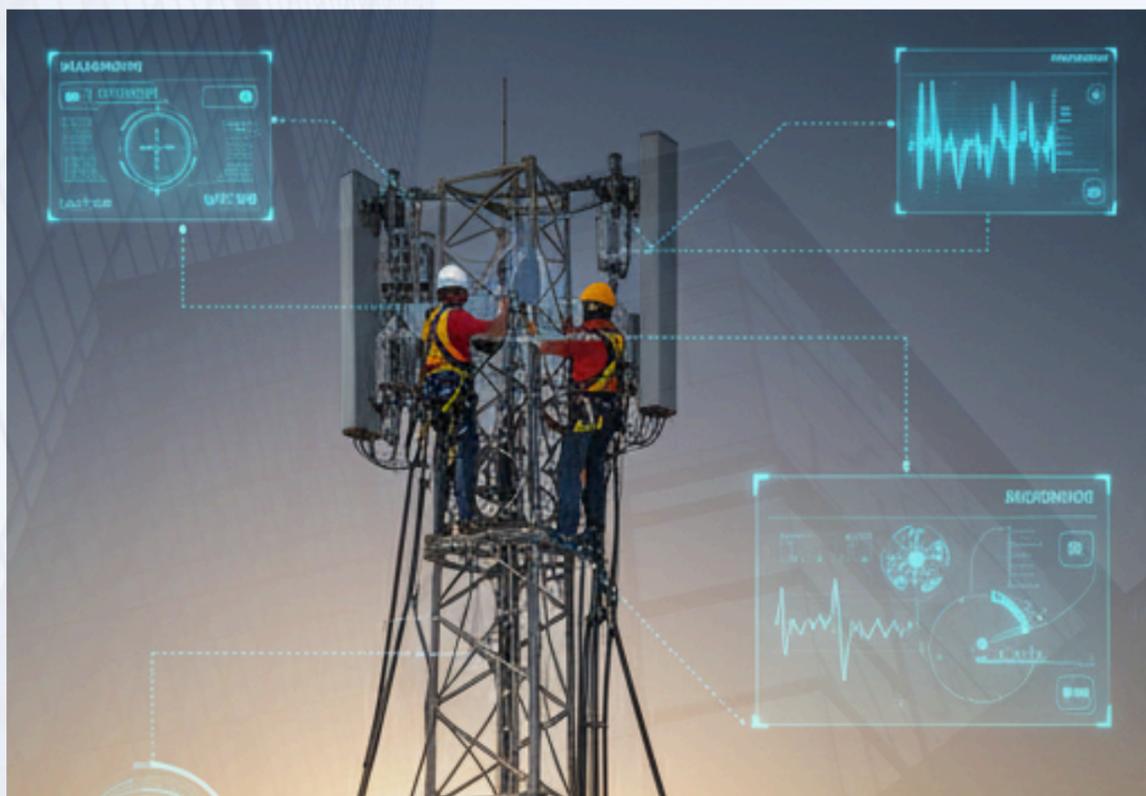

KEY CAPABILITIES:

- In-building network design and execution
- ISP infrastructure deployment
- Structured cabling and fiber installation
- Testing and commissioning
- Operation and maintenance support

GSM TOWERS AND ANTENNA INSTALLATION

ABAN Co. delivers professional GSM tower and antenna installation services supporting mobile network expansion and coverage improvement. Our services are designed to meet the technical, safety, and regulatory requirements of telecom operators and infrastructure providers. We execute projects across urban, industrial, and remote locations.

Our scope includes tower erection, antenna mounting, alignment, cabling, and system integration. ABAN Co. ensures accurate installation to achieve optimal signal coverage and network performance. All activities are carried out by trained personnel following approved methods and safety standards, especially for working at heights.

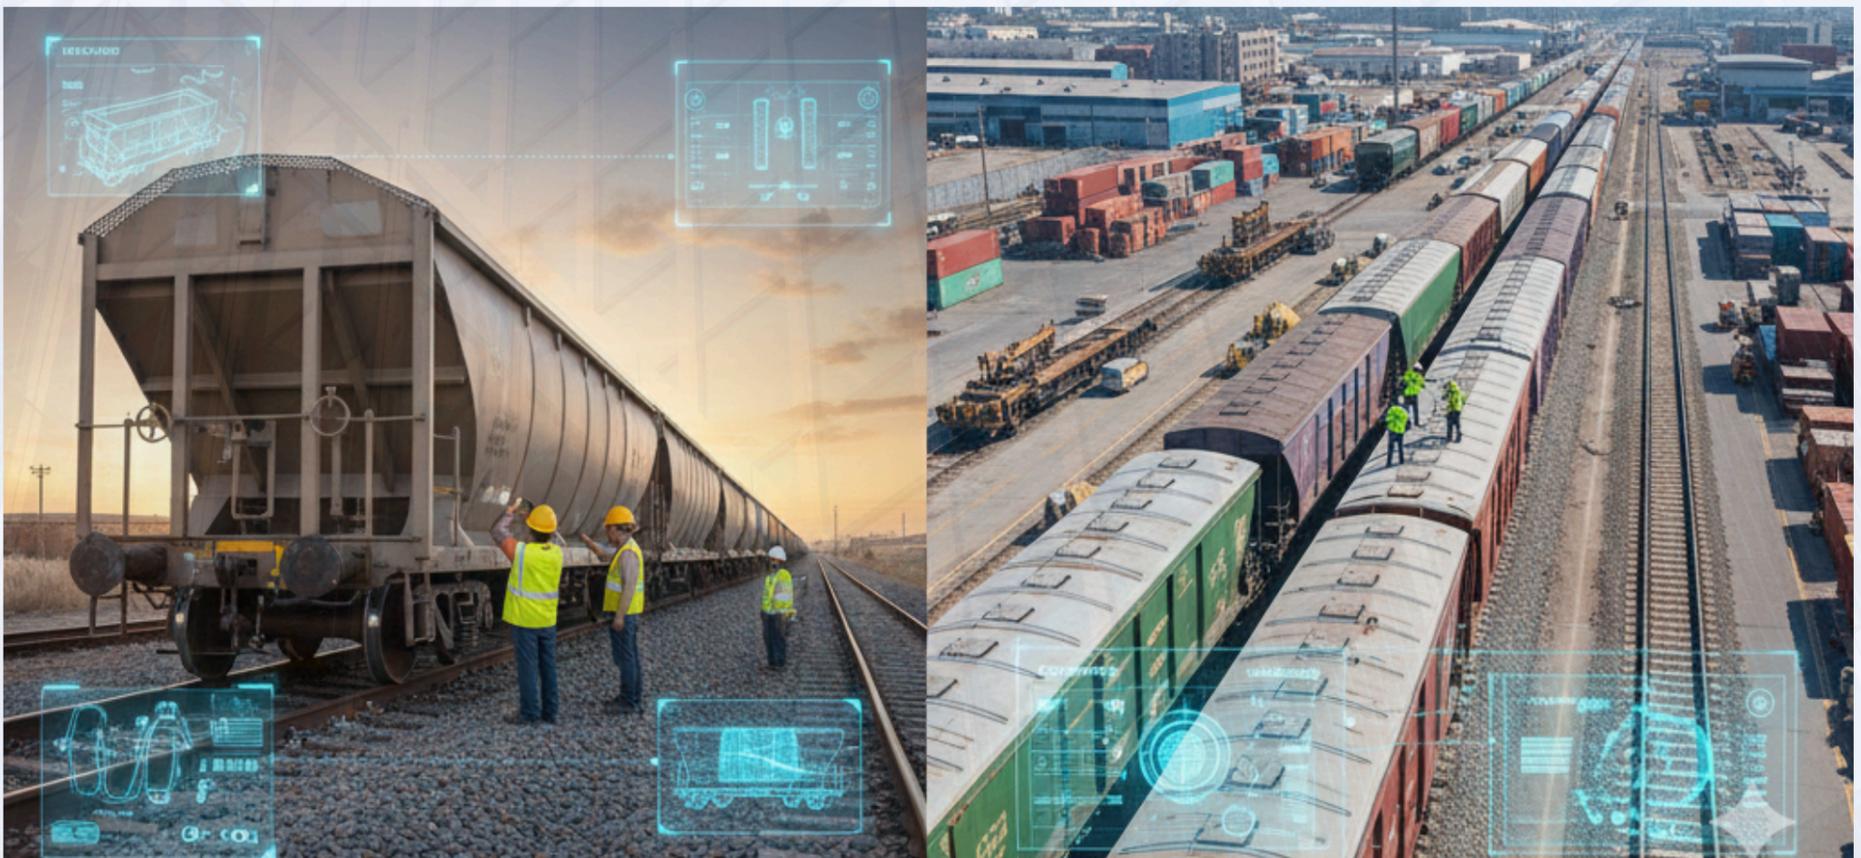

KEY CAPABILITIES:

- GSM tower installation
- Antenna mounting and alignment
- RF and system testing
- Safety and regulatory compliance
- Maintenance and upgrade support

OPERATION AND MAINTENANCE OF BALLAST WAGON AND GOODS WAGONS

ABAN Co. provides operation and maintenance services for ballast wagons and goods wagons supporting railway infrastructure and freight operations. Our services are focused on ensuring operational safety, equipment reliability, and compliance with railway standards. We support continuous railway operations through systematic maintenance planning and execution.

Our teams carry out routine inspections, preventive maintenance, and corrective repairs to ensure wagons remain in optimal working condition. ABAN Co. follows approved railway procedures and safety guidelines while performing all activities. Detailed records and reports are maintained to support compliance and asset tracking.

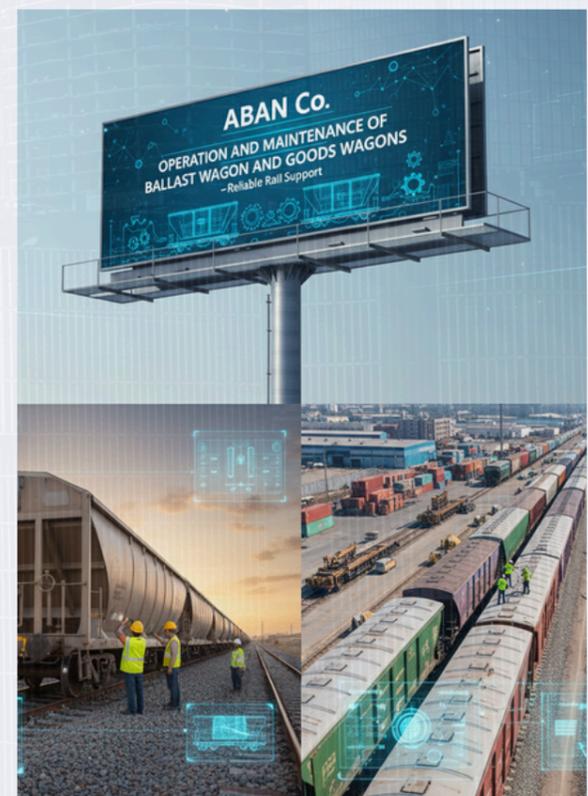

KEY CAPABILITIES:

- Ballast and goods wagon maintenance
- Preventive and corrective maintenance
- Safety inspections and compliance
- Operational support services
- Documentation and reporting

TRACK MAINTENANCE WORK AND TESTING OF TRACK

ABAN Co. provides specialized track maintenance and testing services to support safe and efficient railway operations. Our services focus on maintaining track geometry, structural integrity, and compliance with railway standards. We support both routine maintenance and corrective interventions to ensure uninterrupted rail movement.

Our scope includes track inspection, alignment correction, fastening checks, ballast condition assessment, and minor repair works. ABAN Co. uses approved methods and tools to ensure accuracy and reliability during maintenance activities. Testing is conducted to verify track performance and safety parameters.

KEY CAPABILITIES:

- Track inspection and maintenance
- Alignment and geometry correction
- Testing and verification
- Safety compliance procedures
- Reporting and documentation

FACILITIES SERVICES

ABAN Co. delivers integrated facilities services to support the day-to-day operations of commercial, industrial, and infrastructure facilities. Our services are designed to ensure clean, safe, and efficient environments that enable smooth business operations. We provide reliable facilities support tailored to client requirements.

Our facilities services include technical maintenance, operational support, and routine facility upkeep. ABAN Co. ensures coordinated service delivery through trained personnel and structured processes. Regular monitoring and inspections help maintain service quality and operational efficiency.

KEY CAPABILITIES:

- Facility maintenance services
- Technical and operational support
- Routine inspections and upkeep
- Safety and compliance management
- Service coordination and reporting

STATE HIGHWAY

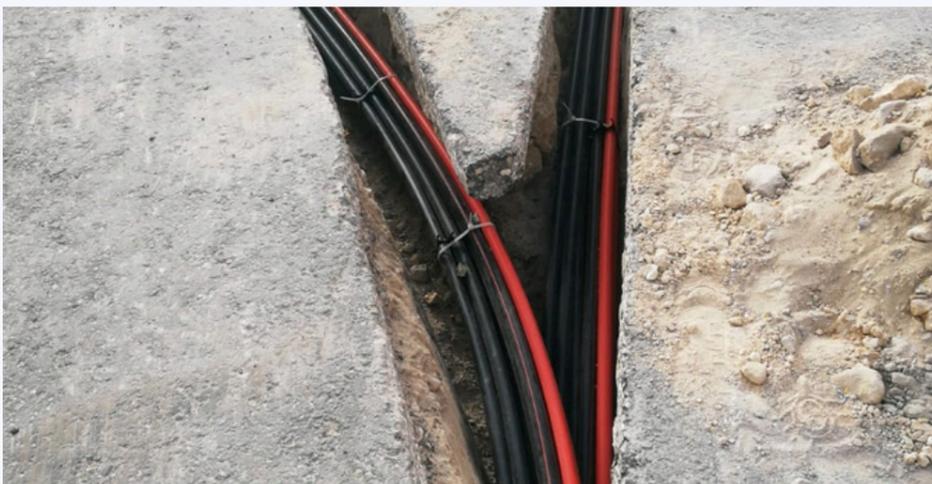

ABAN Co. provides construction and maintenance services for state highway projects, supporting safe and efficient road transportation infrastructure. Our highway services focus on quality construction, durability, and compliance with regulatory and engineering standards. We manage highway works with structured planning and professional supervision.

Our scope includes road construction, widening, resurfacing, and maintenance activities. ABAN Co. ensures proper site preparation, material quality, and execution practices to deliver long-lasting road assets. Traffic safety measures are implemented throughout project execution to protect road users and workers.

KEY CAPABILITIES:

- State highway construction works
- Road maintenance and resurfacing
- Quality testing and inspection
- Traffic safety management
- Regulatory compliance

CERTIFICATES

Certificate of Registration

This is to certify that the Quality Management System (QMS) of
ABAN Co. Limited Company.
P.O. Box 7324, Sulaymaniyah, Riyadh 12241, Kingdom of Saudi Arabia.

Has been successfully assessed as per the requirement of

ISO 9001:2015

For the scope of

General Construction for Housing, Roads and General Infrastructure, Installation of Electrical Cable & Fiber Network, Deployment and Installation of Computer and Telecommunication Network, General Maintenance & Installation of HVAC, ELV, Security System (CCTV) & Fire Fighting System IT services & cyber security, operation & Maintenance of Light & Heavy Mechanical Equipment & Locomotive, Operation & Maintenance of Railway Facilities.
